## **Education**

---

**Bachelor of Science, Computer Science. GPA: 3.643**

**Expected Graduation: May 2024**

**Minor in Mathematics**

University of Central Florida – Orlando, Florida

## **Projects**

---

**Portfolio Website (In Progress) - [GitHub](#)**

**June 2022 – Present**

- Conceptualized a layout and color scheme that would be interesting to the user.
- Developed an interactive and responsive website using HTML, CSS, and Bootstrap 5.
- Optimizing the website with style effects such as animations and color themes with JavaScript and CSS.

**Vyper – [GitHub](#)**

**November 2021- December 2021**

- Programmed an application to prompt user with a random quote, record said user's keyboard inputs, and calculate the user's words per minute using JavaScript.
- Designed a high-performance UI that made the program user friendly and aesthetically pleasing with HTML and CSS.

## **Experience**

---

**Multiple Sclerosis Foundation – Fort Lauderdale, Florida**

**November 2020- August 2021**

**Call Agent**

- Gathered donations from willing first-time donors and planned monthly donations from able, returning donors.
- Participated in educating the public about Multiple Sclerosis and its effects on the individual/family.
- Verified given information with donors and corrected, when necessary.
- Processed and tracked given information through ORION and Five9 software.
